# CP117S Breaker

These heavy breakers are hard-hitting, but with a somewhat lower weight, Impact rate and power than the CP 1290

With their lower air consumption and powerful blow, they are used for heavy applications

“Hushed Power” versions equipped with a muffler are also available (S Models)

## Key Features:

- Relatively hard blow in relation to weight & air consumption
- Integral oiler – provides continuous lubrication
- Two bolt backhead – for lower weight
- Spring retainer – also reduces weight
