Lowarra Doc Series Submersible Pumps

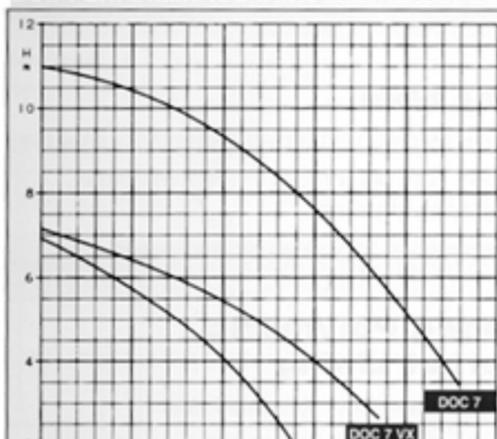

Totally submersible and handy to use, Doc portable pumps are ideal for people who just want to pick up a pump, drop in some water, switch it on and away it goes, or place in a sump or cellar where it will switch itself automatically in an emergency.

Constructed from stainless steel and corrosion resistant materials, Doc's unique design enable it to pass small stones, and sand and grit in fluid suspension, down to level of 20mm, without harm to pump motor.

Available In Auto or Manual

DOC PERFORMANCE CURVES AT 2850 RPM

Typical Applications

- Sump drainage
- Building sites
- Bilge pump
- Tank emptying
- Pool Drainage
- Garden sprinklers
- Garden Fountain
- Waste Water

MODEL	PHASE	KW	DISCHARGE BSP	MASS KG	MAX FLOW L/MIN	MAX HEAD METRES	MINIMUM DRAW DOWN
