# CP0004 Backfill Tamper

Looking for the right power to complete contracting operations?  
 CP backfill tampers get the job done, whether you need a tool to  
 handle light, medium or heavy contracting jobs

### Applications

- Compact soil around foundations and other structures
- Compacting backfill in trenches

### Key features

- Maximum power – slow powerful blows efficiently and quickly compact all types of backfill, including clay and soils containing high percentages of finely crushed or powdered material
- Heat-treated cylinder and chrome plated piston significantly extend tool life
- Aluminum butt held with clamp screw for quick, easy replacement
- Exhaust deflector directs air, moisture and oil away from operator
- Integral oiler for continuous lubrication
