MacDonald 288S Breaker

The Macdonald range of standard breakers has been developed over many years with the design proven in construction & allied industries throughout the world.

Powerful and manoeuvrable, the Macdonald 284S pneumatic breaker has an excellent power to weight ratio. This makes it the ideal tool for a wide variety of heavy duty demolition & narrow trench work jobs.

BENEFITS

- Cushioned handle grips for operator comfort & productivity.
- Silencer for effective noise suppression.
- Well balanced, manoeuvrable & high strike energy.
- Quick change retainer.
- Ease of use due to swivel air connection.
- Easily maintained without specialist tools.
- Drop forged components for minimum wear & maximum life.
- Built in reservoir for automatic oiling & smooth continuous operation.
- Small number of moving parts to minimise internal wear.
